OUR VISION

We believe...

The Union is a great society.

But it has potential to be so much more.

We love...

The Union's proud heritage of top quality political debate and discussion.

But we want to appeal above and beyond this.

We want to see...

A Union that caters to all of our members' interests

A Union that is meritocratic – attracting the best talent in Durham

A Union that harnesses technology and innovation

A Union that is forward looking, modern and self-confident

A Union with our own identity - a true asset not just to the university, but to Durham and the North East

A Union proud of our past, but more excited about our future...

Not all this will be accomplished in one term...
...but you can help us make a start.
